I'm writing in opposition of H.B. No. 5408 violates the civil rights of CT residents. This bill's only effect is to harass residents taking charge for their safety and that of their loved ones. Lets be real about this. It isn't illegal to carry in this state. This bill is really about harassing those choosing to carry.

I do support H.B. No. 5409. Too many times does the local issuing authorities puts in their own requirements. To many times, those extra requirements are used as a means of a denial. Even Enfield does this, but doesn't tell an appicate that their extra requirements are optional.

Thank you for you time.

James Dempsey
